This beautiful new steamer leaves here again for Lake Superior this evening at ten o'clock, from the dock of Malone, Pettit & Co's. 138 Telegraph communication has been opened to Lake Superior. While the Iron"

sides was lying at Marquette, on Saturday last, the first telegram from the East came UNITED STATES COURT .- The court has been

coupled the last two days, hearing the statement of witnesses of Sandusky, designed to impeach the testimony of Cole, and vindicate the previous good character of the alleged conspirators, Rosenthal and Merrick. A man named Heath was on the stand

yesterday, who divulged the plot of Cole, as he (Wole) laid it before him one stormy night in Cole's tent.

The outlines are these : Oa a given night a battery commanding the steamer Michi. gan was to be suddenly ear ured by lurk ing conspirators, and the helpless steamer then seized; the signals were to be given to the steamboats Philo Parsons and May Queen, which should be captured in the meantime and be lying off in the bay; the 128th regiment doing guard duty on the Island were to be massacred; the men of Sandusky given over to the sword, and the fair ladies to the lust of the Catilines; steam should then be put on, and the parties sail for Canada where they would perfect schemes and enterprises of piracy, and make convenient predatory descents upon

the Lake frontier! Modest to say the least. IMPORTANT TO SOLDIERS -The following sircular speaks for itself :

ORDNANDS CREICE, WAS DEPARTMENT Washington, June 5, 1865. The Secretary of War having directed if they so desired, retain their arms upon the value thereof being charged to them on the muster rolls, they can now do so at the Muskets, all kinds, with or without accounts

ment where y they may keep their arms as mementoes of the war. The Government would much prefer presenting these arms as a gratuity to the gallant boys, but as they have not the liberty so to do, they they have not the liberty so to do, they have set a mere nominal price upon the same. As will be seen, the price demanded is not one fourth the value of the arms. NEW SCHOOL HOUSES .- Mr. Price, mem-

ber of the Board of Education, made a ber of the Board of Education, made a statement to the Council, concerning the necessity of having more school houses in the city. Bome of the wards are destitute, and this causes the houses of other wards to overflow, and hundreds of children are prevented from attending school at all. It shade trees.
